

How to set artwork up for....

LARGE banners

For LARGE banners set your artwork up at full, half or quarter size. Your Images should be 75dpi at full size, 150dpi at half size or 300dpi at quarter size

Large banners are viewed at a greater distance than most poster prints so you can drop the resolution down and save dealing with some huge file sizes.

Banners are printed on PVC or Eurofab canvas, both fire rated and can be hemmed with eyelets to finish.

We can supply cable ties or bungee ropes to fix.
