

How to set artwork up for....

# Cut Vinyl

For cut vinyl your artwork should be created in adobe illustrator. Our vinyl cutter is like an architectural plotter but it has a blade instead of a pen.

It cuts vector artwork, so whatever outlines are in your illustrator file.

If you want text cut, outline the text before you save the file, our cutter can cut down to 10mm high letters.

Cut vinyl can be used on walls, floors, windows, doors and cars

typed text

outlined text

Self adhesive vinyl comes in frosted, coloured frosted, flat colour, mettalic gold and silver, sparkly frosted, brushed aluminium effect, holographic, fluorescent, translucent, long term, short term, gloss and matt finish. All cut vinyl is suitable for outdoor applications.
